DISTRICT AGRICULTURAL SERVICES SCHEDULE

The following is a schedule of District Services that are available to the agricultural community.

District Services include, but are not limited to reviewing new or existing Manure Management plans (MMP), Agriculture Erosion & Sedimentation plans (Ag E&S), Nutrient Trading Programs, Agriculture to On-lot System Nitrogen Offset Trading of Nutrients, and Pennsylvania Resource Enhancement and Protection (REAP) applications. Plans submitted to the District will be reviewed for Pennsylvania baseline compliance including adherence to implementation schedule, record keeping requirements, administratively completeness and technical correctness.

PLAN VERIFICATION SERVICES

When a Consultant, Borough, Township, County or State agency request a WRITTEN verification of an operation's Agriculture Erosion and Sedimentation plans and or Manure Management plan for baseline compliance with State requirements the District charges a Plan Verification Service Fee.

The Plan Verification Service fee for Manure Management and Ag E&S plan reviews includes a file review, the initial site visit, the first plan review and documentation and verification of the plan's status. Additional fees will be charged for the review of plans that need to be revised due to errors and omissions in the initial submission. Documentation of review and verification will only be provided when plans are considered complete, correct and meet Pennsylvania baseline compliance.
