

**Lancaster County Conservation District
Erosion & Sedimentation Committee Meeting Minutes
Thursday July 27, 2023
1:30 P.M.
LCCD Upstairs Conference Room #218
Virtually via ZOOM**

Meeting Called to Order

In Attendance: Adam Stern, Jay Snyder, Alex Flurry, Eric Hout, Matt Mack, Matt Kofroth, Chris Thompson

1. Committee Business

- a. Quarryville Borough Police Department Qualification Range - Corrective Action Plan (CAP) and determination on need for Consent Assessment for Civil Penalty (CACP) – Eric Hout

Eric Hout provided the Committee with a timeline of events outlining the District’s response to a complaint on the site. The Committee was asked to advise staff on whether a CACP should be pursued for the violations. The Committee recommends the following:

- **Do not pursue a CACP for the violations on the site as long as the CAP is submitted to the District in a timely manner**
- **Advise the responsible parties that a formal enforcement action is not being pursued at this time, the decision is contingent on their continued compliance with District recommendations and requests, and the District reserves the discretion to pursue a formal enforcement action if they do not continue to voluntarily comply with District recommendations and requests**

2. Reports & Information

- a. Territory Coverage Update – Adam Stern

Adam Stern updated the Committee on the Technician Coverage Map that was implemented as of 7/11/23. The map is currently available on the District website.

- b. 620 Sycamore Drive Site Update – Alex Flurry

Alex Flurry provided the Committee with an overview of the District’s response to a complaint on the project site located in West Hempfield Township. Alex outlined the initial complaint, the initial site inspection, the compliance assistance measures recommended to the responsible party, and the steps that have been taken toward compliance so far.

- c. Orchard Road Site Update – Adam Stern

Adam Stern provided the Committee with an overview of the District’s response to a complaint on the project site located in Warwick Township. Adam outlined the initial complaint, the initial site inspection, the compliance assistance measures recommended to the responsible party, and the steps that have been taken toward compliance so far.
