**7:05 PM Meeting Called To Order**

- 1) The Committee discussed the Board Agenda Item III.4, the referral of the remaining expired Act 38 Nutrient Management Plan (NMP) operations to the SCC. The committee was informed that Kenton Martin was the last remaining CAO operator who had been sent three (3) notices from April to September 2023 regarding his expired plan and not yet submitted a plan for review or contacted the District about contracting with a planner. Two other operators, Charles Craig and Samuel Stoltzfus also were discussed. The committee recommended the following:
  - Refer Kenton Martin to the SCC immediately.
  - Provide Charles Craig until 10/27/23 to submit an updated NMP due to recent change from VAO to CAO
  - Conditional approval to refer Samuel Stoltzfus pending written or verbal confirmation of dairy cows leaving farm and dropping below CAO status
