6:58 PM Meeting Called To Order

- 1) The Committee discussed the Board Agenda Item IV.5, the referral of the remaining expired Act 38 Nutrient Management Plan (NMP) operations to the SCC. The committee was informed that Melvin Allgyer was the last remaining CAO operator who had been sent three (3) notices from April to September 2025 regarding his expired plan and not yet submitted a plan for review. After initial contacts in late August and early September, no plan had been submitted. The committee voted unanimously to recommend to the Board that the operator be immediately referred to the SCC for enforcement.
- 2) The Committee was informed that at next month's Board meeting, an Ag Tech interested in pursuing dual Act 38 NM certification will be asking for Board approval to do so.
