Talking Points

Larson Design Group - Technical Assistance Program Round Open March 9 – May 1, 2026

The next Technical Assistance Program (TAP) application round will be open from **March 9 – May 1, 2026**.

TAP will be accepting project service requests from County Conservation Districts within the Chesapeake Bay Watershed to provide technical services for agricultural projects focusing on nutrient and sediment reduction. Proposed projects must be located within a Most Effective Basin, and have current agricultural plans which contain the Best Management Practice(s) (BMP(s)) that services are being requested for, to be eligible to receive service awards.

Applicants may select services from either Phase 1 or Phase 2:

Phase 1: Outreach, design, engineering, site survey, I&E, and permitting

Phase 2: Bid management, contractor management, and construction inspection

More Information:

Updated Technical Assistance Program resources will be available on the Clean Water Academy Website starting March 9th, 2026.

PA DEP and LDG recognize that every project is unique, and we encourage you to reach out to us so we can address any questions that may arise during project application submission or throughout awarded services. Questions may be directed to Tammy Piper at tapiper@pa.gov

Agriculture Inspection Training: Conducting Inspections, Reporting, and Follow-up – Registration NOW OPEN

This training is intended for DEP agricultural staff and County Conservation District staff not participating in the Chesapeake Bay Agricultural Inspection Program. This includes districts outside the Chesapeake Bay AND districts in the Chesapeake Bay that do not have a Chesapeake Bay Technician agreement. The session will review regulatory requirements and procedures related to conducting agricultural inspections, completing an inspection report, and performing follow-up activities.

Training options:

- Monroe County Conservation District — April 7th, 10:00 AM to 3:00 PM
- Penn State Extension Building (Mercer County) — April 9th, 10:00 AM to 3:00 PM

There is no cost for this training, but registration is required. Lunch will be provided, and Nutrient Management Credits are currently being evaluated.

Registration:

Please register using the link below:

<https://pacleanwateracademy.remote-learner.net/course/view.php?id=1691>

Please look on the Clean Water Academy registration page for a list of recommended pre-requisite courses to complete before the training.

If you do not have a log-in for Clean Water Academy, please contact Allyson Hanawalt at ahanawalt@pa.gov or visit the Clean Water Academy home page and select “Contact Us” to request a new account.

Pennsylvania Envirothon – Volunteers Needed for 2026

The Pennsylvania Envirothon is seeking volunteers to support this year's Oral Component and Station Testing Day. As a Conservation District program, the Envirothon relies on the expertise and commitment of District Managers, Staff, and Directors. If each district provides one or two volunteers, we can fully meet our needs for a successful event.

Oral Component (Fully Virtual – Volunteer Remotely) May 14 and 15, 2026

Volunteers will assist in half-day judging blocks. All oral component judging is conducted online, allowing volunteers to participate from any location.

State Envirothon Station Testing Day (In-person) May 20, 2026

Camp Mount Luther – 355 Mt Luther Ln, Mifflinburg, PA 17844

In-person volunteers are needed to support station testing; *volunteer clearances are required.*

Volunteer Registration is open 2/1/26-3/20/26: Register at Envirothonpa.org.

For questions or additional information, contact:

Courtney Raker

Email: execdirector@envirothonpa.org

Phone: (570) 837-3000

Dirt, Gravel, and Low Volume Road (DGLVR) Program Trainings

The Dirt, Gravel, and Low Volume Road (DGLVR) Program has several sessions scheduled for 2026. These include trainings on Environmentally Sensitive Road Maintenance (ESM), DGLVR Program Administration, DGLVR Finances, DGLVR Technician Bootcamp, and Road-Stream Crossing Replacements. Trainings are free for conservation district staff and partner agencies to attend; online registration is required. Details and registration are online at the Penn State Center for Dirt and Gravel Road Studies website: <https://dirtandgravel.psu.edu/education-training/>

Upcoming DGLVR Trainings:

- Mar 25 - 26, 2026: ESM Training (Bucks County)
- Apr 8 - 9, 2026: ESM Training (Wayne County)
- April 14 - 16, 2026: DGLVR Technician Boot Camp (Centre County)
- Apr 28, 2026: DGLVR Financial Training (Centre County)
- Apr 29 - 30, 2026: ESM Training (Crawford County)

Chapter 105 Program

YouTube Release of The Importance of Wetlands Education Video - The Bureau of Waterways Engineering and Wetlands, Division of Wetlands Encroachments and Training, in conjunction with Commonwealth University, announced last fall the release of an educational video via the [Clean Water Academy](#), addressing the societal and environmental significance of wetlands. In collaboration with Communications, the Bureau has broadened the video's accessibility through its release on YouTube. This strategic expansion aims to enhance public awareness and understanding of the crucial function's wetlands perform. By disseminating this educational resource across multiple platforms, the Bureau seeks to foster environmental stewardship and augment ecological literacy among Pennsylvanians, reinforcing the importance of wetlands. [The Importance of Wetlands - YouTube](#)

Upcoming Chapter 105 Webinar on Trenchless Technology Guidance Document: Please join the Pennsylvania Department of Environmental Protection's (DEP) Chapter 105 regulatory program for this webinar on DEP's February 2024 technical guidance document title [Trenchless Technology](#). During the webinar we will present on the background and impetus of the guidance, explain and walk through the guidance document, and cover practical application of the guidance. The webinar will be held April 15, 2026 from 10-11am online. You must [register online at this link to attend](#).

New Chapter 105 Clean Water Academy Courses - The Bureau of Waterways Engineering and Wetlands, Division of Wetlands Encroachments and Training (Division) has recently completed 3 efforts to more easily share the various wetland trainings we offer on the [Clean Water Academy](#) (CWA). These wetlands trainings are incredibly beneficial for Chapter 105 staff, but also have great value that extends into various other programs areas, like ag compliance and grant programs. You are welcome to navigate the CWA independently, but the Division hopes you find these 3 items useful to your team's particular learning needs.

- **Chapter 105 [Wetland Training](#) Update for February of 2026** – This quick 2-page list furthers our goal of ensuring well-designed training is accessible and beneficial to all learners. The Division anticipates numerous updates this year, including over 15 hours of interactive training courses, PDHs, informative webinars and videos.
- **[Intro to Wetlands Course](#) List** – This comprehensive list of trainings within the larger Introduction to Wetlands Determination course is geared towards learners seeking a foundational understanding of wetlands. This new wetland identification course includes informative videos, webinars, trainings and even a few quizzes. Interested learners can continue their experience with courses focused on restoration and other recommendations.
- **[Technical & Educational Resources](#) webpage** – This updated webpage is intended to share current initiatives regarding advancements in technical and educational resources, as well as to inform the public of forthcoming developments expected in the coming year. By increasing the visibility of these initiatives, the Division seeks to further promote its program and engage the public.

Please share these resources with your managers, staff and any stakeholders that you think may appreciate the learning opportunity!

Please note that the CWA is undergoing a restructuring during 2026 to offer improved navigability and a better user experience. As such, some links will require updating, so keep an eye out for updated resources.

If you have any questions about wetlands trainings, please email RA-EP105QUESTIONS@PA.GOV (also copied above).

[Update to the Technical and Educational Resource Webpage](#) - The Bureau of Waterways Engineering and Wetlands, Division of Wetlands Encroachments and Training (Division), has updated its Technical & Educational Resources webpage. This update is intended to share current initiatives regarding advancements in technical and educational resources, as well as to inform the public of forthcoming developments expected in the coming year. By increasing the visibility of these initiatives, the Division seeks to further promote its program and engage the public. The updated webpage can be found at [Technical and Educational Resources | Department of Environmental Protection | Commonwealth of Pennsylvania](#).

Chapter 102 Program

PennDOT KEES Review – As of the end of 2025, PennDOT is now submitting all new Individual NPDES Permit applications and new PAG-02 NOIs through KEES for review. DEP reminds District Managers that when a submission is received, District Managers must take the first step in KEES to assign a permit number and set up the review team. If District Managers do not complete this step, no one else at the CCD will be able to access the application/NOI to begin review. DEP hopes to improve this functionality in the future to provide more flexibility, but until that occurs it is critical that District Managers do not ignore KEES submission notifications. KEES training is available in Clean Water Academy, and any questions about this process may be sent to RA-EPCHAPTER102@pa.gov.

Chapter 102 Pilot Program – The [Chapter 102 Pilot](#) program was launched May 1, 2024, to try new processes to see whether they accelerate permit review times for Individual NPDES Permits. Since then, 11 CCDs have been participating, though most projects have been in just a few counties. There have been 16 projects that were deemed eligible to participate and 11 of the pilot permits have been issued to date. We have seen some preliminary success with the program; compared to the standard process, permits are being issued at least 25% faster. However, it has been determined that a larger sample size is needed before making conclusions about the new processes.

Therefore, the 102 Pilot program is being expanded to statewide participation. Any CCD who wishes to participate or has questions can contact the Bureau of Clean Water (BCW) at RA-EPCCHAPTER102@pa.gov. Participation will require a delegation agreement amendment. Additionally, the PAG-02 is being added to the program. Any CCDs who are currently participating can contact BCW to further amend their delegation agreement to include PAG-02 review.

Chapter 102 Basic Training – Save the date for the Chapter 102 Basic Technical Training on June 1-5, 2026, at the Penn Harris Hotel in Camp Hill, PA. This training is open to CCD and DEP staff who work with the Chapter 102 program. The curriculum is designed for new or newer technicians and incorporates classroom learning and a field component. New staff are encouraged to participate in Basic Training for two years, if possible. Registration coming soon, stay tuned!

Upcoming Events

Regional In-Person E&S Training – DEP’s Bureau of Clean Water is hosting one-day small group E&S training events again in 2026. These in-person events are intended for new staff, with a focus on sediment basin/trap review. Completion of the Level I Training Program and event registration is required. Details and sign-up are available on Clean Water Academy: <https://pacleanwateracademy.remotelearner.net/course/view.php?id=922>.

- Southcentral – March 18
- Northeast – June 17
- Southeast – August 5
- Northcentral – September 10
- Northwest – October 14

Clean Water Academy

[Course: How to Access the Qualified Visual Site Inspector Training Programs](#)

This training contains a short instructional video on how to create a Login in Clean Water Academy and access Qualified Visual Site Inspector Training Programs. There are two QVSI Training Programs. A general QVSI Training program for those covered under the PAG-02 and a PennDOT specific QVSI Training Program.

[Course: Stormwater Control Measure \(SCM\) Suites Planning Tool](#)

This course introduces the SCM Suites Planning Tool and explains how it can be used to support early-stage PCSM planning.

Chesapeake Bay

Countywide Action Plan (CAP) Agreement Closeout Considerations - DEP’s Chesapeake Bay Watershed Restoration Division will be closing out Countywide Action Plan (CAP) agreements which have periods of performance ending on June 30, 2026. As counties send in their final reimbursements that will draw down the last of the funds on those agreements, they should be sending in a list of the completed projects funded during the period of performance of the agreement. With that last reimbursement request, they will provide a data-pull from PracticeKeeper of all the best management practices (BMPs) that were CAP-funded. DEP Project Advisors will check to make sure that all BMPs have an associated project name and date-stamped photo.

Webinar Wednesday Scheduled March 18th from 9:30 am to Noon - DEP's Chesapeake Bay Watershed Restoration Division will be hosting a virtual Webinar Wednesday via Microsoft Teams on Wednesday, March 18th from 9:30 am to noon with a 15-minute break scheduled from 10:45 am – 11:00 am. The date was originally scheduled for March 4th but was changed to March 18th due to scheduling conflicts. The following topics will be discussed:

- Discussion on CAP Grant Changes
 - DEP will present updates to the CAP Implementation Block Grant and review tools to support county partners.
- Growing Greener and 319 Nonpoint Source Management Grants – What's New?
 - DEP will present new features of the upcoming Growing Greener Plus and Section 319 Nonpoint Source Management Grants Programs.
